This is how you can color text

Custom color

Command for Page Break

Code chunk

This format hide chunks by default as option has been set in `_extension.yml` file.

```
> # Loading some data but this chunk won't be shown.
```

But you can set `echo` option to `true` locally in the chunk

```
# This chunk will be shown.
```

Using references

Add references by going to [Google Scholar](#). Click the “Cite” icon under the paper of interest. Copy the **BibTex** text and paste it into the `bibliography.bib` file.

This research is really lame.¹
